Quality for your lifestyle

ORGANIZATION

Richard Pieris Group of Companies has been in business for over 80 years and is recognized as the pioneer of the Sri Lankan Rubber products manufacturing industry. In 1992 the company pursued a new strategy of reorganizing the organizational structure of its manufacturing divisions and independent Strategic Business Units (SBU) with full operational autonomy was formed.

Richard Pieris Rubber Products Ltd was formed to carry out the Rubber products manufacturing operations of the Group. As specified in the Company's mission statement, Richard Pieris Rubber Products Ltd is in the business of satisfying customer needs by adding value to rubber to provide products required by the Household, Industrial, Institutional and Export markets.

The main strength of the Company is its brand name ARPICO which has become a household name in Sri Lanka. This has earned the Company the trust and reputation of Consumers islandwide. Quality is considered important in every aspect and this is being given utmost priority. Special focus is given to improving productivity and reducing costs.

Principal Activities

Richard Pieris Rubber Products Ltd manufactures moulded, extruded, calendered and fabricated rubber products for the domestic, industrial and export markets. Qualified and experienced rubber technologists provide a complete service of product design, mould and die fabrication, compound formulation according to the customer's specifications. The Company has high technical capability and customer orientation to react rapidly to orders and new development inquiries.

Richard Pieris Rubber Products Ltd (the market leader in Sri Lankan Rubber Industry) is the largest domestic door mat manufacturer in Sri Lanka have been introducing various types of new door mat designs from Rubber, Coir and Fabric types for various applications such as indoor, outdoor, garden etc...

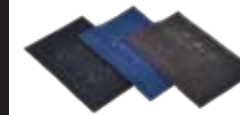

- Traps dirt and dust
- Anti Bacterial / Anti Fatigue
- Slip and Slide Resistant
